# One Voice...

## What is OHPAC?

The Oregon Hospital Political Action Committee (OHPAC) is the political voice for Oregon hospitals and health systems, their employees and the patients they serve.

OHPAC was founded in 1982, as a non-profit, non-partisan, voluntary membership based organization. Our mission is to help elect officials and candidates understand the importance of maintaining a strong community-based hospital and health system in Oregon.

OHPAC seeks to foster a common understanding of the important roles Oregon hospitals and health systems play, both as community health advocates and as essential employers within the communities they serve.

Supporting candidates who care about health care ensures our message is clearly heard by elected officials and political leaders in Salem and in Washington D.C. OHPAC members provide grassroots and financial help to legislative candidates and office holders who demonstrate a commitment to Oregon's community hospital system.

***Every single membership is important because it is through our collective efforts that we can best shape the legislative agenda for health care in Oregon.***

## Who Are OHPAC Members?

OHPAC is comprised of men and women throughout Oregon who care about the hospitals in their own communities. All hospital employees are strongly encouraged to participate in OHPAC. Community leaders, members of hospital boards, and all members of the health care profession are welcome to join OHPAC.

## Why Should You Join OHPAC?

Government activity has a direct impact on the way you go about doing your daily business of delivering health care. A strong political action committee is integral to an effective advocacy program. Your membership to OHPAC is an effective way of participating in the political action process that will help shape public policy so it reflects the needs of our hospitals, health systems, the communities and patients we serve.

OHPAC sends a powerful message of unity on behalf of hospitals and health systems by allowing contributors to pool their donations with their peers across Oregon. Collectively, we provide a stronger voice for hospitals and health care concerns than any single voice.

Supporting OHPAC make certain hospitals and health systems have a meaningful voice in the outcome on vital health care issues. Interest groups from many disciplines work to have their voice heard, and hospitals and health systems need to be at the forefront of the debate.

## How Much Does Membership in OHPAC Cost?

There is no minimum level of contribution to participate in OHPAC. Our greatest strength comes from the number of members working together. We find that most members use the following guide to determine their level of contribution:

- **Ben Franklin Club** **\$1,000**  
Hospital & System CEOs, CFOs and COOs  
Industry Leaders & Benefactors
- **Chairman's Circle Member** **\$500**  
Hospital & System Vice Presidents & Administration
- **Capitol Club Member** **\$350**  
Hospital & System Directors & Managers
- **OHPAC Sustaining Member** **\$125**  
Hospital & System Employees & Board Members
- **Hospital Auxiliary/Volunteer** **\$50**

*Contributions of \$350 or more are divided equally between OHPAC and our federal PAC partner, AHAPAC.*

### **Join OHPAC and Get a Tax Credit.**

Your contribution of \$50 per person or \$100 per couple is eligible for a direct tax credit on your Oregon State income tax return. That means up to \$100 of your OHPAC membership contribution (if you file a joint return) costs you nothing!
